## **JAMP MSDSplus Preparation Guide**

### **I Scope**

This document specifies how to create the JAMP MSDSplus.

### **II Data entry**

#### **<MSDSplus Information>**

**Format Version** (Automatic)

**Substance list Version** (Automatic)

**GP(Global Portal) sheet ID** (Automatic)

Enter the ID if you are a JAMP-GP member and use its service.

If JAMP-GP service is not used, "9" is shown in each of 16 digits by default. (This does not mean an error).

**Sheet Reference Number** (Optional, 30 letters or less)

A number is shown for controlling of documentation and checking inquiries concerning the MSDSplus issued.

A number, symbol, etc., may be assigned arbitrarily by the issuer. However, care must be taken to avoid sharing numbers with the MSDSplus of other products.

**Original, Issued Date** (Mandatory, alphanumerics, 10 letters)

Enter the date of issue of the first version of MSDSplus concerning the relevant product.

As a rule, enter the date by using the calendar format "YYYY-MM-DD" with A.D.

**Revision, Latest Issued Date** (Mandatory when revised, alphanumerics, 10 letters)

Enter the revision date of the version of the MSDSplus concerning the relevant product.

As a rule, enter the date using the format "YYYY-MM-DD."

Leave this field blank in the case of the first version which has not been revised yet.

**Revision, Revision History** (Mandatory, alphanumerics, 3 letters or less)

In principle, enter data by using serial numbers (1, 2, 3 ... 999).

In the case of the first version, enter the number "1."

#### **<Product Information>**

**Manufacturer name** (Mandatory, 200 letters or less)

Enter the name of the company issuing the MSDSplus.

The data must be consistent with that shown in the MSDS.

**Product name** (Mandatory, 200 letters or less)

Enter the name of the relevant product.

The data must be consistent with that shown in the MSDS.

**Issuing company item number, Alphanumeric** (Mandatory, alphanumerics, 200 letters or less)

Enter the product number, reference number, etc., of the relevant product using alphabetical characters.

Do not overlap to use the numbers with other products.

**Issuing company item number, Mother Language** (Optional, 200 letters or less)

Enter the product number, reference number, etc., of the relevant product using mother language characters.

This data entry is optional. If you use this option, do not overlap to use the numbers with other products.

**Common product name** (Optional, 200 letters or less)

Enter the product name widely accepted by the public. The data entered must be consistent with that shown in the MSDS.

【Example】

Polypropylene, rubber adhesive, etc.

## &lt;Issing company Information&gt;

**Company name, Alphanumeric** (Mandatory, half-width alphanumerics, 200 letters or less)

Enter the name of the company issuing the MSDSplus using (half-width) alphabetical characters.

The data must be consistent with that shown in the MSDS.

**Company name, In Mother Tongue** (Optional, half-width or full-width alphanumerics 200 letters or less)

Enter the name of the company issuing the MSDSplus in mother tongue .

The data must be consistent with that shown in the MSDS.

**Company ID, Registered ID** (Optional, if applicable, half-width alphanumerics)

Enter the registered ID (such as ICD code) optionally using half-width alphanumerics if any numbering system for identifying public agencies such as DUNS is available. Do not enter the company code, partner code, etc., used for specific trades or deals. The field may be left blank if there is no such code in particular, or you have no intention to enter it.

**Company ID, Entity ID** (Optional, half-width alphanumerics, 13 letters or less)

Enter the Company ID optionally if there is any company number or standard corporate code such as the abovementioned DUNS number issued by public agencies or third parties. Do not enter the company code, partner code, etc., used for specific trades or deals. The field may be left blank if there is no such code in particular, or you have no intention to enter them .

**Issuing department, department name** (Mandatory, half-width or full-width alphanumerics, 200 letters or less)

Enter the name of the department creating or controlling the MSDSplus.

Basically, the data entered must be consistent with that shown in the MSDS.

**Issuing department, address** (Mandatory, half-width or full-width alphanumerics, 200 letters or less)

Enter the address of the company department issuing the MSDSplus.

The data entered must be consistent with that shown in the MSDS.

**Issuing department, phone number** (Mandatory, half-width alphanumerics, 100 letters or less)

Enter the phone number of the department creating or controlling the MSDSplus using alphanumerics.

Basically, the data entered must be consistent with that shown in the MSDS.

**Issuing department, fax number** (Optional, half-width alphanumerics, 100 letters or less)

Enter the fax number of the department creating or controlling the MSDSplus using alphanumerics.

Basically, the data entered must be consistent with that shown in the MSDS.

**Issuing department, email address** (Optional, half-width alphanumerics, 100 letters or less)

If there is an email address representing the department creating or controlling the MSDSplus, enter it using alphanumerics. If there is no such email address or there are only the email addresses of specific responsible persons, which may be changed in the future, leave the field blank.

**Department in Charge of Preparing AIS, Department name** (Optional)

If the department preparing the MSDSplus is different from the department controlling and distributing it, enter the department name if necessary. If such department is the same as the department controlling the MSDSplus or if you think it is not necessary to enter the department creating it, leave the field blank.

**Department in Charge of Preparing AIS, Telephone number** (Optional, half-width alphanumerics, 100 letters or less)

Enter the phone number of the abovementioned department preparing the MSDSplus, If such department is the same as the department controlling the MSDSplus or if you think it is not necessary to enter the department creating it, leave the field blank..

**Remarks** (Optional, half-width or full-width alphanumerics, 200 letters or less)

Enter any additional data deemed to be necessary by the issuer of the MSDSplus.

**< Information on Substances to be controlled (STC) contained in the products>**

**Declaration concerning the information on controlled substances contained in the product** (Optional, selective)

If you are intentionally adding STC, to the products, or if the fact that the products contain STC is well known, please declare as below, followed by information list of the substances;

“1.This product contains the following substance(s) listed in the relevant standard. .”

If these are not the case, please declare as below, followed by no additional information;

“0.This product contains NO substances in the relevant standard and to be notified.”

For your information, “the fact that the products contain STC is well known” means the cases where we can apparently judge that the products contain STC, through the facts such as “Raw material manufacturers informed you that the products contain STC” or “You have verified in certain way that the products contain STC.”

Detail should be entered into the separate sheet.(sheet of table of ingredients)

**<Detail of standard to be used for controlling STC >**

Following is the list of standard to be used for controlling STC under MSDSplus, together with codes and/or symbols assigned therein.

**Issued or revised** (Mandatory, half-width or full-width alphanumerics, 80 letters or less)

Initial scene indicates the date of drawing up or revision of the substance list which has been downloaded.

If you refer to the standard to be used for controlling STC, you are to enter revision date and relevant information.

【Example】

Relevant Standard		Issued or revised
JP01	Japanese Chemical Substances Control Law (Class I Specified Chemical Substances)	2010-04-01
JP02	Industrial Safety and Health Act (Substances Prohibited of Manufacturing etc.)	2007-09-07
JP03	Poisonous and Deleterious Substances Control Law (Specified Poisonous Substances)	2007-08-15
EU01	RoHS Directive	2011/65/EU
EU02	ELV Directive	2011/37/EU
EU03	CLP [Annex VI Table 3.2 CMR-cat. 1,2]	EUNo 618/2012
EU04	REACH Annex XVII [Except EU03]	EUNo 126/2013
EU05	REACH SVHC on the Candidate List	2013-06-20
EU06	POPs Annex I	2012-06-20
OT01	ESIS PBT [Fulfilled]	2008-10-28
IA01	GADSL	2013 GADSL Version 1.0
IA02	IEC62474/JIG	IEC62474 D3.00

#### <Information of STC in the products > sheet of table of ingredients

If you are intentionally adding STC to the products, or if the fact that the products contain STC is well known, contained STC should be entered as follows;

For details of STC, please refer to the “Controlled Substances Manual, Latest Version.”

**Substance name** (Mandatory, half-width alphanumerics, 1024 letters or less)

Basically, enter the substance name as is referred to in the control standards.

However, even if the substance group is specified in the control standards, enter the substance name if it is known. Also, if there are a plurality of relevant control standards and the substance is referred to in different ways, choose any one name.

**CAS number** (Mandatory, half-width alphanumerics, 16 letters or less)

Enter the CAS number or JAMP substance number (JAMP-SN) referred to in the relevant control standards.

In the following cases, indicate a hyphen “—” in the corresponding field, and enter necessary descriptions in the "Remarks" field.

- In case there is no CAS number
- In case there are a plurality of CAS numbers
- In case the CAS number varies depending on isomeric forms, etc.
- In case there are no applicable control standards

**Max. concentration** (Mandatory, half-width alphanumeric, positive number between 0 and 100, rounded to 4 decimal points.

Enter the maximum concentration and maximum content concentration of the substance in units of wt%.

**Remarks** (Optional, half-width or full-width, 80 letters or less)

Enter additional information on the substance in the "Remarks" field, if any.

If there is no such information, leave the field blank.

- If a threshold value is set and the value is less than the threshold value, you may enter "Less than the threshold value" in the "Remarks" field.

**Relevant standard** (Mandatory, selective)

If the substance is shown in each of the listed control standards (legal regulations, industry standards etc.), indicate "1 or P,D,P/D,R,A,I," otherwise leave the field blank.

For details about the control standards, refer to the separate explanatory document.

Note that the relevancy of the control standards to legal regulations depends on the concentration, application, etc., at the time of sales. You are requested to note that this clause is solely used for indicating whether any substances included in the control standards are contained, and not for indicating the applicability of legal regulations.

### III Remarks

Revised version of JAMP MSDSplus must be promptly issued in any of the following cases.

- In case any controlled substance(STC) is added due to the legal changes or equivalent.
- In case additional information from raw material suppliers make the revision necessary.
- In case additional information from performing analysis of equivalent make the revision necessary.
- In any cases, where the issuing entity deems the revision to be necessary.
