● **Astonishing macro shots from 1cm away**

Move in and shoot as close as 1cm away from your subject with the lens set at its widest angle, or 8cm away in telemacro. You can use AF Target Selection with its four direction buttons—▲▼◀▶—to shift the focus point without moving the camera. Explore the fun world of macro photography!

● **0.007-second shutter release time lag***

The Caplio R30 powers up in just 1.1 seconds, has a shutter release time lag of

approximately 0.09 seconds (without focus lock engaged) and resets for your next shot in half a second. Enjoy fast response that lets you take great shot after shot.

● **Compact design and long-lasting power**

With the included rechargeable lithium-ion battery, you can shoot approximately 330 pictures*. That's enough for an entire vacation, or business trip. Synchro monitor mode automatically switches the LCD monitor off when the camera is not in use, delivering a big gain in battery power conservation.
