28mm WIDE

Experience the stunning interplay of time and light with 28mm wide angle photography.

● F5.0 1/1230 ISO: 100 (28mm)

Experience the superior lens performance and cutting-edge zoom that is the hallmark of Ricoh optical technology.

Step Zoom & Auto Resize Zoom for more picture taking possibilities and greater expressive range.

The Caplio R6 includes an optional 7 automatic step zoom settings within the wide angle 28 – 200mm zoom range. What's more, when going beyond 200mm optical 7.1x zoom, the 4-step^{*1} 34.1x (960mm)^{*2} maximum Auto Resize Function enables picture taking at distances out of reach of normal zoom.

Optical 7.1x zoom

28mm (1.0 x)

35mm (1.25 x)

135mm (4.8 x)

200mm (7.1 x)

Auto Resize zoom

960mm (34.1 x)

Stand alone lens performance with Ricoh optical technology

Ricoh lenses include the latest coating technology to minimize ghost and flare. They also ensure excellent color balance and a high-quality image across the whole distance of a shot. The Caplio R6 uses an aspherical lens that corrects for all types of lens aberration and achieves excellent picture taking performance at all focal points and distances.

Double Retracting Lens System in a 20.6mm wide body

Ricoh's unique Double Retracting Lens System is what makes it possible for us to equip the Caplio R6 with 28-200mm optical 7.1x zoom. What's more design advances mean this outstanding technology fits inside a body a mere 20.6mm thick.

※ At thinnest position

**Record moments of beauty just as they are.
Preserve forever the rich expression of
a loved one in all its vividness.**

200mm TELE

● F5.2 1/68 ISO: 100 (200mm)

A superb image processing engine and CCD and an even more advanced body design.

Superior technology makes the Caplio R6 more compact, more beautiful, and a camera that you can always rely on to capture the image you want.

Ricoh's unique Double Retracting Lens System makes it possible to equip the Caplio R6 with 28-200mm optical 7.1x zoom in its remarkably slim 20.6mm body (when fully retracted). A thin body means an even more comfortable hand held camera, as well as one that emphasizes durability. The innovative curves and lines of its curve fit form and buttons positioned for one-hand operation achieve a superb body design that becomes a natural extension of your hand each time you take a picture. The Caplio R6 takes the functionality, reliability, and quality that are a must for a digital camera to a whole new level.

Smooth Imaging Engine II & high megapixel CCD

The Caplio R6 contains Ricoh's Smooth Imaging Engine for rapid image processing large amounts of image data with minimal noise. The camera also comes with an effective 7.24 megapixel CCD for accurately reproducing beautiful images. The Caplio R6 can also create beautiful high-image quality A3 size photographs.

A large high resolution, high angle, and bright 2.7 inch 230,000 pixel LCD

The Caplio R6 has a high resolution, high angle, and bright 2.7 inch 230,000 pixel LCD. The easy to view display makes taking pictures outdoors easier than ever. Display icons are also easy to see.

※ Image is simulated

Convenient features and Ricoh's reputable ADJ button

The Caplio R6 also has Ricoh's ADJ (adjust) button so that the photographer can easily check exposure correction, white balance, ISO sensitivity, and other settings when taking a picture. The camera has a range of features that make it easy to take the picture you have in mind. What's more, favorite settings can be saved and recorded for later use.

Now saving those precious moments and memories is more fun and easy than ever.

▲ Face Recognition Mode ON ● F5.2 1/52 ISO: 100 (200mm)

Face Recognition Mode makes taking beautiful pictures easy

▲ Face Recognition Mode OFF

Face Recognition Mode automatically identifies faces in a scene, brings them into clear focus and corrects exposure while adjusting for optimal white balance.

Face Recognition Mode automatically adjusts to optimal settings even when a face is not in the center of the frame and can capture up to four faces in a single shot.

※ Face Recognition Mode is not guaranteed to work in all photographic conditions.

※ Image is simulated

▲ Zoomed shot with Vibration Correction ON

CCD shift hand vibration correction

When hand shake is detected the CCD moves to counter-balance the shake. An improved controlling algorithm reduces the hand shake that tends to occur when taking telephoto, macro, and other shots.

※ Photo simulates effectiveness of Vibration Correction that varies depending on shooting conditions.

※ Vibration correction is not guaranteed to work in all photographic conditions.

▲ Zoomed shot with Vibration Correction OFF

● F5.2 1/14 ISO: 100 (200mm)

Amazing 1cm macro & 25cm tele macro

Photograph a subject as close as 1cm with the lens at its widest angle* and up to 25cm in tele macro. Take long distance shots (200mm) without blurry backgrounds and achieve photos with the same rich expression that you intended. For macro shots, you can use AF Target Selection to focus without moving the camera.

* Equivalent to 31mm.

※ Image is simulated

The Caplio R6 has a complete range of functions and features to meet the needs of every setting and photographer.

Capture every moment with split second continuous shooting.

The Caplio R6 powers up in only 1.2 seconds*, has a shutter release time lag of 0.011 seconds*, and resets for your next picture in 0.5 seconds*. Fast response times means you won't miss that once in a lifetime shot. Even children at sporting events and favorites pets at play can be photographed without missing a moment of action. *Time measurements with flash and Vibration Correction Function OFF.

● F5.4 1/620 ISO: 100 (33mm)

Ultra-sensitive ISO with AUTO Mode

ISO sensitivity (maximum 1600) means you can take clear pictures with minimal noise even in evening and dark indoor settings. What's more the ISO AUTO Mode automatically adjusts for brightness up to the ISO maximum of 1600. By selecting AUTO-HI from the ISO sensitivity settings menu, you can configure the ISO sensitivity upper limit to AUTO400, 800 or 1600.

● F3.3 1/10 ISO: 800 (28mm)

A wide selection of scene settings

Broaden your expressive range by choosing from a wide selection of ideal scene settings depending on the scene, subject, and composition of the picture you want to take.

Sepia mode ▶

Black & white mode

Movie mode

Skew correction function

The Skew Correction function enables you to take pictures from an angle as if it were taken directly in front, a very useful feature in settings such as a business conference. Skew Correction enables you to take images of projection screens, white boards, desktop documents, business cards and other square and rectangular objects without any distortion. Images can be corrected after they are recorded as well.

My Setting function

With the My Setting feature you can save your favorite settings and select them the next time you want to use them for a picture. Up to two settings can be saved.

Highlight Display function

Pressing the DISP. Button when doing quick review or in playback mode switches on the highlight display so that you can check the highlighted sections of an image.

* Our highlight display is the standard.

Enlarged icon display

You can enlarge display icons for easier viewing, a convenient way to check settings and avoid mistakes.

※ May differ from actual display

Dual Size recording and shooting

You can simultaneously record an original size still image and a smaller image size sub-file (320: settings at time of purchase are 480/640/1280). Use original size when editing your image on a computer and for printing. Use the sub-file image when doing things such as sending pictures as email attachments or uploading images to blogs.

Compatible with SDHC and other memory cards

The Caplio R6 is compatible with SDHC SD memory cards, making it possible to save more image data than before. The camera also comes installed with 54MB of memory.

Other features

- Ample power supply, up to 310 shots*1
- Total three types of continuous shooting function are available. Besides normal continuous shooting, there are S-continuous and M-continuous shooting modes which can be displayed in 16 partition images.
- High-quality movie function with VGA 30fps
- Batch delete function & 10 image skip function
- PictBridge compatible
- Ricoh printer compatible form print function*2

*1 Battery performance was measured using CIPA-standard parameters. Actual performance may vary according to usage conditions and the brand of the battery.
*2 For further details, please contact your local Ricoh dealer.

Recording Mode	Still mode (Still, Continuous, S-Continuous, M-Continuous), Scene mode (Portrait, Face Recognition, Sports, Landscape, Nightscape, High-sensitivity, Zoom Macro, B&W, Sepia, Skew Correction, Text, Movie) My Setting 1, 2s
Recording Format	Still JPEG (Exif ver. 2.21) DCF*5 compliant Text JPEG (Exif ver. 2.21) DCF*5 compliant Movie AVI (Open DML Motion JPEG format compliant) Sound WAV (Exif ver. 2.21 μ law)
LCD Monitor	2.7" Transparent amorphous silicon TFT LCD (approx. 230,000 pixels)
Self Timer	Delay: 10sec., 2sec.
Interval Timer	Shooting interval: 5 sec. - 3 hours (5 sec. steps)*6
PC Interface	USB2.0 Hi-speed (Mini B cable), (choice of Ricoh original or mass storage driver*7)
AV Interface	Audio Out, Video Out
Video Signal Method	NTSC/PAL
Dimensions (W×H×D)	99.6(W) X 55.0 (H) X 23.3mm (20.6 at the thinnest part) (D) (excluding projections)
Weight	Approx. 135g (without battery, SD memory card, hand strap), Accessories approx. 26g (rechargeable battery, hand strap)
Power Source	rechargeable battery (DB-70) X 1,
Shooting Capacity*8	Using DB-70 : Approx.310 pictures
Operating Temperature	0°C-40°C

* 1: VGA image size.

* 2: Only F (Fine) is available for 3072 X 2048 size. Only N (Normal) is available for 640 X 480 size.

* 3: When the flash range is set for ISO auto.

* 4: Estimated number of still images it is possible to record

* 5: DCF is the abbreviation of JEITA Standard "Design rule for Camera Files system."

* (It does not guarantee perfect inter-camera compatibility.)

* 6: With flash off.

* 7: Mass Storage driver is compatible with Windows Me/2000/XP/Vista, Mac OS9.0-9.2.2, and, Mac OS X 10.1.2-10.4.8.

It is not compatible with Windows 98SE.

* 8: Shooting capacity was measured using CIPA-standard parameters. This is only an estimate, and performance may vary according to usage conditions.
