

[Enhanced Functions] of updated Firmware version 1.10 for K-3 Mark III

- [Shutter Mode Selection] will be added to the shooting settings in the menu.

You can select either [Mechanical Shutter] or [Electronic Shutter] from the Shutter Modes Selection.

- When electronic shutter is selected, as an additional function shutter speed linkage range is 1/16000 sec. to 30 sec.

*This is the screen when exposure M (manual) mode is selected.
