Thank you for purchasing this PENTAX digital camera. The Optio WG-1 GPS / Optio WG-1 is waterproof, dustproof, and shockproof, as shown below, so it can be used in a wide range of outdoor activities.

Waterproof: JIS grade 8 waterproof and grade 6 dustproof (IP66). Shockproof: Satisfies Pentax drop test (1.3 m height onto a 5 cm thick plywood surface) complying with MIL-Standard 810F Method 516.5-Shock testing.

* Waterproof performance is not guaranteed if the camera is exposed to impact such as being dropped or hit. * The camera is not guaranteed to be free of trouble or damage under any condition.

---

### 1 Preparing the Camera for Use

#### Prepare your camera for use before you begin using it.

**Attaching the Carabiner Strap**
Attach the carabiner strap supplied with the camera as shown in the illustration.

**Installing the Battery and SD Memory Card**
Install the battery and SD Memory Card as shown in the illustration.

The inside of the battery/card and terminal covers are not waterproof:
- In locations where the camera is exposed to water or dirt such as underwater, at the beach, in a kitchen, etc., make sure that the battery/card and terminal cover lock levers are firmly locked so that they won’t open unexpectedly. Do not open the covers in such locations.
- When removing the battery/card or aborting surroundings where the camera may be exposed to water or dirt, and make sure the camera, battery, card, and your hands are completely dry.

---

### 2 Turning the Camera On

**Press the power switch.**

The camera turns on and is ready to take still pictures. Press the power switch again to turn the camera off.

**Make the Initial Settings.**
The Language [enu] screen appears when the camera is turned on for the first time. Select the desired language and then set the date and time.

1. Use the four-way controller (↑↓←→) to select the desired language.
